### **John C. Hill**

**Air Force Acquisition Customer Engagement,**  
**Dayton Field Office, Ohio**

Mr. John Hill is a Customer Engagement Liaison for the Boeing Company in the Dayton Field Office near Wright-Patterson Air Force Base. Mr. Hill has been with Boeing since July 2022 and is responsible for a portfolio that includes Tankers, Transports, Presidential Aircraft, Autonomous Systems, and Rapid Sustainment projects, among other things.

Prior to his employment with Boeing, Mr. Hill spent over 30 years at Wright Patterson working a variety of projects within the Engineering Directorate. In his most recent assignment, Mr. Hill served as the USAF KC-46 Chief Engineer, responsible for all airworthiness issues on the KC-46 as well as the technical engineering efforts of all major development, production, sustainment, and modifications work on the KC-46 Fleet. In addition, he was the Chief Engineer for the F-35A, Lead Sustainment and Systems Engineer for the F-22, and the Crew Systems Technical Advisor for the Air Force Life Cycle Management Center. His extensive flight systems experience includes lead acquisition engineering positions with several aircraft System Program Offices, including the F-15, F-16, F-22, and F-35, as well as supporting roles in the C-17, C-130, T-6, T-7A, B-1, B-2 and the B-21.

John has a Bachelor's Degree in Biomedical Engineering from Wright State University and a Master's Degree in Engineering Management from the University of Dayton and is a graduate of Air War College. He is a member of the Air Force Association, Airlift/Tanker Association, Association of Airworthiness Professionals, and other professional affiliations.

John and his wife, Beth Ann, currently reside in Dayton, Ohio and have three children, Sarah, Jacob, and Chase. John is an avid sports fan who enjoys traveling, golfing and staying fit.
