Jonathan Morton

Senior Manager, BDS Airworthiness Military Certification

Jon Morton is a senior airworthiness manager for Boeing Defense and Space (BDS) responsible for the oversight of Military Handbook 516C certified programs under the Product and Services Safety organization. He is responsible for the airworthiness of several domestic military and international military programs and has experience working with numerous airworthiness authorities. His team currently supports several DOD and NASA projects including B-52, F-15, F/A-18, MQ-25, MQ-28, T-7A, X-66A and more. He previously was a manager for the 737 Regulatory Administration Team responsible for supporting the MAX Return to Delivery with the FAA, EASA, and other international regulators. He is currently the Boeing representative for the Airworthiness Defense Industry Advisory Group (ADAIG).

He started his Boeing career on the 777 program as a liaison engineer supporting systems installation. He held subsequent roles supporting the 787 final assembly team and then the Everett Delivery Center. He managed the 737 Production Support Engineering teams for 737 Final Assembly, 737 Wings, and P-8A Final Assembly. Later, he led the 737 Wire Design team. Jon is a graduate of the Boeing Leadership Development Excellence (LDE) Program, Class of 2016. He holds a B.S. in Aerospace Engineering from St. Louis University and a M.S. in Systems Engineering from the University of Southern California.

Jon currently resides in the St. Louis area with his wife and 3 kids. He enjoys cycling and skiing.
