

Cesar Gonzalez

Cesar is the Airworthiness Director for the Global Surveillance Division in the Northrop Grumman Aeronautics Systems sector in San Diego CA and joined Northrop Grumman in 2011. Prior to Northrop Grumman, he worked twenty-five years at Boeing on civil and military aircraft in a variety of engineering and program management roles.

His experience includes over 35 years in diverse roles including commercial aviation flight test, avionics systems development, R&D, international program management, and airworthiness certification with civil and military airworthiness authorities.

Cesar holds a Bachelor of Science degree in Aerospace Engineering from Cal Poly Pomona and an MBA from UCLA.
